

PARTNERSHIP WITH MUSQUEAM

TRIPS TO THE FARM

1

During the summer a youth camp visited the farm to harvest carrots for the local food bank. A group of Elders visited to learn about fresh cut flower bouquets.

MUSQUEAM MARKETS

2

Every 2 weeks The Sharing Farm delivered fresh food to the Musqueam community at no cost for folks to pick up.

SEED SHARING

3

TSF has shared several packs of seeds that have been distributed to a few of the home gardeners in Musqueam. There will be a seed saving workshop in the near future.

A NOTE FROM MUSQUEAM COMMUNITY MEMBER, KYMBERLEE STOGAN

I am so grateful for the relationship we have built this past few months with The Sharing Farm. Musqueam has been able to access local foods, get outdoors and participate in community programs. Leslie and folks at The Sharing Farm are doing good work to take care of the land and create community. We look forward to strengthening our relationship in the coming years.

When you support The Sharing Farm you are also supporting Musqueam.
